County Council 18 September 2020

Motion on Support and Recognition for Veterans with Post-Traumatic Stress Disorder

Revision agreed by Cllr Edwards

This Council advocates better treatment of veterans who suffer from post-traumatic stress disorder (PTSD) and better recognition for those who have died as a result of this disorder. The County Council takes the wellbeing of all those who have served extremely seriously and is continually considering how it can better understand the needs of ex-services persons who are suffering from PTSD and provide the best possible support.

In this country there is a National Memorial Arboretum to commemorate those who have given their lives in the service of our country. Families are able to spend time there remembering their loved ones. Every name, in one place, a calm, respectful space, where people can reflect and honour these heroes. However, those veterans who have taken their own lives, succumbing to Post Traumatic Stress Disorder caused by combat, are not remembered at the National Memorial Arboretum.

This Council believes that this must change. These service personnel have given their all in their service for our country and in many cases have been medically discharged from service because of the trauma they have seen and taken part in. Subsequently, as civilians, they take their own life and therefore are recognised as combat related casualties.

This Council calls upon the Leader of the Council and the Armed Forces Champion to:

- (1) Lobby the Ministry of Defence **and other appropriate bodies** to provide a fitting memorial to those who have served and ultimately succumbed to PTSD'
- (2) Continue to work with partners through the West Sussex Civilian Military Partnership Board to improve the lives of veterans and promote the services available to them with particular emphasis on mental health services, including use of the Forces Connect South East App to all staff as a signposting mechanism;
- (3) Encourage staff to undertake Armed Forces Mental Health First Aid training; and
- (4) Work with the Cabinet Member for Adults and Health to ensure that health and wellbeing matters affecting veterans, including PTSD, are recognised in health and wellbeing strategies including the forthcoming refresh of Suicide Prevention Strategy in 2020.
