2. None declared.

Part I Minutes of the previous meeting

3. The Board requested an amendment to the minute 41 to clarify that Mr Elder was no longer working for an employer in the West Sussex Local Government Pension Scheme.
4. Resolved – that the minutes of the meeting of the Board held on 29 November 2017, amended as above, be agreed as a correct record.

Progress Report

5. The Board considered the progress report on matters arising from previous meetings (copy appended to the signed minutes). Adam Chisnall introduced the report and confirmed that the Terms of Reference had now been changed following the resolution at the November meeting. The Terms of Reference were now available on the Pension Advisory Board's webpage.
6. Tara Atkins reported that the draft Local Government Pensions Scheme (LGPS) Amendment regulations had been recently received and would be available for consideration at the next Board meeting.
7. The Board queried the customer survey and if a reminder would be sent out. Tara Atkins confirmed that the active member survey would be completed in a few weeks.
8. Steve Harrison reported that the training needs document was still being worked on by officers and was part of a wider exercise to align training with the Pensions Panel.

9. Resolved – That the Progress Report be noted.

Pensions Panel Minutes – Part I

10. The Board considered the confirmed part I minutes from the November Pensions Panel meeting and the Agenda from the February Pensions Panel meeting (copy appended to the signed minutes).

11. The Board queried minute 106, bullet 4, and asked where the credits had been applied. Steve Harrison confirmed that the credits had been used to allow fund improvements and had not gone to the County Council.

12. Resolved – That the minutes and agenda be noted.

Pensions Panel Compliance

13. The Board considered a report by the Director of Finance, Performance & Procurement (copy appended to the signed minutes).

14. Steve Harrison introduced the report which outlined reports from the Pensions Panel. A key piece of work was to consider the Investment Strategy and de-risking as the fund level had reached 105%. It was also a CIPFA requirement to report the Treasury Management Policy.

15. Resolved – That the board notes the compliance demonstrated by the reports.

Regulations and Guidance update

16. The Board noted that Tara Atkins had informed them of the LGPS Amendment regulations and that there was no other guidance to discuss.

Administration procedures and performance

17. The Board considered a report by the Director of Finance, Performance & Procurement (copy appended to the signed minutes).

18. Tara Atkins introduced the report and explained that KPI compliance issues had led to a change in communication processes for members with deferred benefits. The KPI for this would be split in to two parts; the first linked to the pensions team sending options through when someone was leaving the scheme; the second linked to the notice explaining what benefits were available. Previous issues with this KPI were linked to the backlog. The new proposal should align with the regulations better.

19. Tara Atkins reported to the board the impact of the Brewster case for the LGPS. Actions had been implemented following impact on partner nominations and cases had been checked to ensure compliance with potentially affected members. 4 members had been impacted and have been contacted.

20. Tara Atkins updated the Board on Guaranteed Minimum Pension (GMP) liability. The pensions team had resolved 50% of the fund membership and were waiting on responses from Her Majesty's Revenue and Customs (HMRC) to resolve

issues with individual cases. This was linked to an outcome from the Local Government Association and the Treasury. The Board queried when the responses from HMRC were expected. Tara Atkins explained that the original date was December 2018, but this was now linked to the dashboard work rollout. Procurement work was happening for rectifying works.

21. Tara Atkins reported that the communications policy had been reviewed and updated as part of an annual review. Work was being done with Capita to meet with employers to explain the changes. Similar organisations were being met in groups, e.g. Parish Councils, Academies, etc, to ensure similar issues were being discussed together. The Board felt that communications had improved and commented that the survey results should be monitored to see if this was reflected.

22. The Board made comments including those that follow. It:

- Queried when member newsletters would be sent out. – *Tara Atkins confirmed that employer and member newsletters were currently being drafted. The active member newsletters were produced in line with the annual benefit statements; the pensioner newsletters were produced in line with the April payslips. Peter Scales and Chris Scanes had comments on the draft newsletters which they resolved to send to Tara for consideration.*
- Welcomed the involvement with the newsletter process and commented that the level of the response to the newsletters should dictate how much work goes in to them. – *Tara Atkins commented that there was not much change to the pensioner profile and so there was not much to report in each newsletter. Officers would action feedback if it was received.*
- Queried the timing of newsletters with regard to informing of inflation increases. – *Tara Atkins explained that the newsletters would not be the official notification of this. Payslips would be the official notification. Members would be able to use the portal to check this.*
- Sought clarity on caseload Key Performance Indicator (KPI) figures. – *Tara Atkins reported that the increase in new administration staff had shown improvement across all work; levels of complaints had also reduced. The KPI figures were based on cases completed, not work received. Steve Harrison reported that Clare Chambers was happy with the upward trend.*
- Asked if it was possible for the Board to see details of compliance of work not covered by KPIs. – *Tara Atkins reported that officers were looking at ways to prepare the data to satisfy this request to ensure that all work was reflected. The data should be available for the July Board meeting.*

23. Resolved – That the Board notes the report and will monitor future caseload performance.

Review of West Sussex Pension Advisory Board

24. The Board considered a report by the Director of Finance, Performance & Procurement (copy appended to the signed minutes).

25. Steve Harrison introduced the report and explained that work had been done to consider how other Pension Boards within the ACCESS group were governed. The proposals outlined in the report included an increase in board membership which would improve resilience.

26. The Board made comments including those that follow. It:
- Welcomed the proposal to increase board membership and queried if it would be useful to consider what type of members were appointed. – *Steve Harrison felt it would be difficult to prescribe this, but it could be possible to encourage representation from desired areas. The Chairman reported that the recent appointment process for the Board had received a good mix of applications. It was proposed to add the desired areas to the advertisements and also consider a balance for the size of employers represented. It was proposed to utilise newsletters and the July Annual meeting of the Pension Fund to advertise the roles. Tara Atkins also proposed using the monthly bulletin.*
 - Queried the inclusion of a regular risk register item to the agenda and what the risk register would cover. It was felt that the Board did not require its own risk register, but it would be useful to consider and make recommendations for the fund risk register.
 - Discussed the frequency of Board meetings. – *Steve Harrison explained that the inclusion of one additional meeting per year would allow improved alignment with Pensions Panel meetings. It was proposed that Board meetings should follow Panel meetings. Adam Chisnall confirmed that the draft calendar for meetings was created during the summer and that this request could be considered then.*
 - Queried if it was possible to see unconfirmed Pensions Panel minutes. – *Adam Chisnall explained that Part I minutes were made available on the Pensions Panel webpage, but proposed it may not be possible to see unconfirmed Part II minutes before they were agreed by the Pensions Panel.*
 - Discussed the recommendation to complete the Pension Regulator Toolkit modules. – *It was reported that the modules were due to be reviewed and that it may not be appropriate to ensure all current modules were complete.*
27. The Chairman welcomed the proposals that would bring consistency with other Pension Boards.
28. Resolved – That the Board.
- (1) Agrees to the inclusion of the proposed regular agenda items.
 - (2) Agrees to an increase in Board members from five to seven.
 - (3) Agrees to an increase in the minimum number of meetings per year to four.

Business Planning and Performance

29. The Board considered a report by the Chairman of the Pension Advisory Board (copy appended to the signed minutes).
30. The Chairman introduced the report and explained that amendments were required to reflect the March meeting cancellation.
31. The Chairman discussed self appraisal for the board, and reported that other Boards have interviews with the Chairman or post meeting appraisal documents. The Board felt that meetings 1:1 meetings with the Chairman would be effective.

The Chairman resolved to investigate this to consider timing for these meetings. It was felt the meetings should take place before the proposed changes for the Board happen.

32. The Board queried if the increase in meeting frequency would impact the budget. – Adam Chisnall reported that the cost of an additional meeting would not increase his role costs on the budget.

33. Resolved – That the Board.

- (1) Agrees the Business Plan performance report for 2017/18.
- (2) Agrees the schedule of key tasks and activities as planned in 2017/18 and as achieved.
- (3) Agrees the budget statement showing expenditure in 2017/18 against budget and as planned for 2018/19.
- (4) Agrees the statement for inclusion in the Fund Annual Report.
- (5) Agrees that the Pensions Panel and Governance Committee be informed accordingly.

ACCESS Work Update

34. The Board considered an update report on ACCESS (copy appended to the signed minutes).

35. Steve Harrison introduced the report and informed the Board that the ACCESS pool had appointed Link Fund Solutions Ltd as its rented pool operator. By appointing the operator the fund had met the April deadline that had been set by the Government.

36. The Board discussed how pooling would impact their work and felt they would not be working with the operator, but continuing to work with the Pensions Panel.

37. Steve Harrison proposed inviting Rachel Wood or Vickie Hampshire to the next Board meeting to give a further update on ACCESS.

38. Resolved – That the update be noted.

Training

39. The Board received a document outlining the training that been recorded for Board members (copy appended to the signed minutes).

40. Adam Chisnall introduced the report and highlighted the previous discussion regarding the proposed review of the Pensions Regulator toolkit modules. Tara Atkins resolved to monitor for any communication regarding these changes.

41. The Chairman highlighted the Financial Statements training on the 13 June and also the CIPFA LGPS Local Pension Boards Three Years on event on 27 June.

The Chairman reported that he and Tim Stretton had attended the CIPFA LGPS Spring Seminar for local pension boards and resolved to send the slides to Board members.

42. The Board proposed inviting the Pensions Regulator to a future board meeting and felt this should be considered for 2019.

43. Resolved – that Board members complete the training needs document when it is complete and circulated.

Date of Next Meeting

44. The Board noted that its next scheduled meeting would take place on Wednesday 18 July 2018 at 9.30 a.m. at County hall, Chichester.

45. The Board requested that a risk management training session should follow the July meeting.

Exclusion of Press and Public

46. Resolved - That under Section 100(4) of the Local Government Act 1972, the public be excluded from the meeting for the following item of business on the grounds that it involves the likely disclosure of exempt information as defined in Part I, of Schedule 12A, of the Act by virtue of the paragraph specified under the item and that, in all the circumstances of the case, the public interest in maintaining the exemption of that information outweighs the public interest in disclosing the information.

The meeting ended at 11.12a.m.

Part I

Declaration of Interests

137. Rachel Wood declared a personal interest in relation to the ACCESS Pooling Update item as her husband works as a Principal Pensions Officer at East Sussex County Council.

Part I Minutes of the Pensions Panel held on 6 November 2017

138. The Panel requested that the word ‘consider’ in minute 99 should be removed. The Panel also felt that ‘and were working successfully for the Fund’ should also be removed from minute 99.

139. Resolved – that the Part I minutes of the Pensions Panel held on 6 November 2017, amended as above, be approved as a correct record, and that they be signed by the Chairman.

Business Plan Update

140. The Panel considered a report by the Director of Finance, Performance and Procurement (copy appended to the signed minutes).

141. Steve Harrison introduced the report and explained that the report highlighted key tasks and risks for the fund.

142. It was reported that Savills had been reappointed as the external property valuer for the fund. Administration performance was also discussed, and the Panel were informed that the January figures for targets showed that the three targets had been met. New staff had been hired which had helped with administration.

143. The Panel made comments including those that follow.

- Queried if contingency plans had been considered following the recent news regarding Capita performance. – *Katharine Eberhart reported that contingency plans for all areas were being looked at. Short term emergency plans had been considered relating to how contracts were run. The Panel were reassured that payroll contingency plans were in place.*
- Sought clarity on the size of employers recently admitted to the fund, particularly Essex Cares Ltd. – *Steven Law confirmed that there were 50 members for Essex Cares Ltd.*
- Asked how long Savills had in place and what the tender process had been. – *Rachel Wood confirmed that Savills had been in place for three years. Laura Davies explained that there had been a full tender process with three bidders. Savills had been appointed under the same terms and conditions they had previously. The Panel asked if this would impact Aberdeen Standard. Rachel Wood explained that the contract with Savills was with the Pension Fund and not Aberdeen Standard. Savills were the agent of the fund and independent.*
- Queried if officers were confident that administration performance would be maintained. – *Katharine Eberhart confirmed that the figures would be carefully managed and that if the staff levels were consistent, continued levels of performance would be expected.*

144. The Panel agreed to have a discussion regarding Capita administration performance in the Part II section of the meeting as the contents of the discussion would contain exempt information.

145. Resolved - That the Panel notes the updates and proposed actions in the Business Plan.

Investment Strategy

146. The Panel considered a report by the Director of Finance, Performance and Procurement (copy appended to the signed minutes).

147. Rachel Wood introduced the report and explained that the report followed the recent informal meeting of the Pensions Panel to look at investment strategy. The report had drawn on the discussions at that meeting. Since the informal meeting Hymans Robertson had undertaken further modelling work on de-risking and re-risking.

148. David Walker gave a presentation to the Panel on the Investment Strategy Review (copy appended to the signed minutes).

149. David Walker spoke through the current strategy for the fund concerning allocation to growth assets and stabilizing assets. The review had looked into the strategy to meet longer term objectives.

150. David Walker spoke through the objectives for the fund, with a main aim to stabilize contributions by managing rate affordability and risk exposure. Asset buckets were discussed with the recommendation to recognise income as a new asset bucket. The property portfolio did not currently have a drive towards development and so would be classed within the income bucket.

151. Steven Law discussed contribution targets and that 14% was no longer appropriate due to the increase in the cost of benefits. Surplus could be carefully utilised to help reduce rates. The recommended target rate would be around 18% which would allow appropriate flexibility to allow for market fluctuations. In order to add some future-proofing to the strategy, he recommended a target in line with the cost of benefits at future valuations.

152. Steven Law outlined the different strategies that had been tested and outlined how they had scope to achieve the 18% rate. It was important to consider strategies that did not increase risk without added benefit. Probability of success measures were used to determine which strategies were suitable and which ones met the criteria of the strategy. The presentation showed a 10% and 20% de-risking strategy that would meet the desired criteria.

153. David Walker explained that it was important to consider which assets were appropriate for income generation. Getting a further 20% invested in a short timeframe would be hard to achieve and so a target of an additional 10% would be more appropriate.

154. David Walker explained the practicalities of changing the investment strategy and how they would impact income assets and ACCESS Governance. Training would also be a key consideration.

155. The Panel made comments including those that follow.

- Queried Patheon as a private equity manager and if they should come to a Panel meeting. – *Rachel Wood explained that they had not attended a Panel meeting recently due to their small portfolio size.*
- Asked if infrastructure investment would belong in the income asset bucket. – *David Walker confirmed that it would.*
- Sought clarity on the recommended timeframes for contribution changes. – *Steven Law explained that there were rules in place over how fast this could happen. All employers in the fund had to be considered to ensure those with surplus could see an added benefit.*
- Queried the timescales for implementing the new investment strategy – *Steven Law proposed two years as a good timeframe. Caroline Burton added that it would depend on what was available to buy. A lot of work would be necessary to gain confidence in the available options.*

- Asked if the model would currently propose moving bonds to growth for re-risking. – *Steven Law explained that if funding levels dropped the options would be to increase contribution rates or consider taking more risk. If the 85% funding level was reached, the Panel would make a decision to perhaps consider moving protection assets into growth assets – therefore, a minimum amount of liquidity was required in the protection bucket. If funding levels rose to a high level, such as 120%, this would meet probability considerations and so a 14% contribution rate could be considered.*
- Sought clarity on action taken when triggers were breached. – *Steven Law explained that moving funds incurred costs and so they should be considered carefully. If the fund had over a 2/3 probability rating, it may be better to wait.*
- Asked if cashflow could be utilised for investment. – *Steven Law explained that the fund is cashflow positive, but not significantly so it would take a long time to build up the required amount.*

156. Resolved - That the Panel recommends.

- a. A further asset category (income) is included as a strategic asset bucket, in addition to growth and protection.
- b. The current property mandate (10% allocation) is reclassified as an income asset
- c. The Fund seeks to move a further 10% from growth assets to an alternative income asset class (meaning a total allocation to income assets of 20%).
- d. The move should be over 2-3 years based on appropriate opportunities including arrangements available through the ACCESS pooling structure.
- e. The contribution strategy should target a contribution window around the Fund's cost of accrual, currently about 18% of pay, over the next two valuation cycles (to 31 March 2026)
- f. The current re-risking strategy, at 85%, is retained.
- g. Any re-risking follows a Pensions Panel discussion and appropriate advice.
- h. If the funding level reaches 120%, the panel should consider moving the target contribution rate to 14% during the following actuarial valuation if these levels persist.
- i. Further modelling work would be required if the funding level continued to rise beyond 120%.

Treasury Management

157. The Panel considered a report by the Director of Finance, Performance and Procurement (copy appended to the signed minutes).

158. Steve Harrison introduced the report and explained that the proposed strategy was a continuation of the existing policy. It was explained that money was held in cash to assist with transactions such as property investments.

159. Jonathan Clear explained that cash levels were monitored for the intention of paying bills and property transactions. These funds were very liquid and were passed on to cash managers to be more strategic with investment policy. £30m was currently being held for the intention of property investments.

160. The Panel made comments including those that follow.

- Queried the action that would be taken to meet the property investment target. – *Rachel Wood explained that future transactions would be over the long term. Work would be done with Aberdeen Standard to consider this. David Walker proposed that overweight equity could be used to assist with this.*

161. Resolved - That the Panel approves the 2018/19 Treasury Management Strategy and notes the treasury activity undertaken during 2017/18.

Date of Next Meeting

162. The Panel noted that its next scheduled meeting will take place on 30 April 2018 at 10.00 a.m. at County Hall, Chichester.

Exclusion of Press and Public

163. Resolved - That under Section 100(4) of the Local Government Act 1972, the public be excluded from the meeting for the following item of business on the grounds that it involves the likely disclosure of exempt information as defined in Part I, of Schedule 12A, of the Act by virtue of the paragraph specified under the item and that, in all the circumstances of the case, the public interest in maintaining the exemption of that information outweighs the public interest in disclosing the information.

The meeting ended at 3.05 p.m.

Pension Advisory Board

18 July 2018

Administration Procedures and Performance

Report by Director of Finance, Performance and Procurement

Summary

This report provides a high level view of the administration process and performance in support of the Pension Fund and its members, active, deferred and retired.

Recommendation

That the Pension Advisory Board receives the report and confirms any further information that they require.

1. Background and Context

- 1.1 As the Board are aware, Capita provide the Pension Administration Service for the West Sussex Local Government Pension Fund. The administration team are based in Chichester and the County Council works closely with Capita.

2. Compliance with Scheme Regulations

- 2.1. The Terms of Reference for the Pension Advisory Board includes assisting the Scheme Manager to secure compliance with the scheme regulations and other legislation relating to the governance and administration of the scheme and any statutory pension scheme that is connected with it. The following projects are therefore considered relevant to note work being undertaken to comply with changes.

Amendment Regulations

- 2.2. On 27 May 2016, The Ministry for Housing, Communities and Local Government (MHCLG) opened a consultation on proposed changes to Local Government Pension Scheme (LGPS) in England and Wales. On 19 April 2018, the LGPS (Amendment) Regulations were laid before Parliament, and the Ministry for Housing, Communities and Local government (MHCLG) responded to the original consultation on the same day.
- 2.3. The Regulations came into force on 14 May 2018 but certain provisions have effect from 1 April 2014.
- 2.4. A summary of the Amendment Regulations are set out below. A detailed breakdown is available in the LGA Bulletin 171. See background information below.

- 2.5. There is a requirement for all Administering Authorities to communicate the Regulation changes to scheme members as soon as possible, and in any event by 13 August 2018 (three months of the date of change). West Sussex will utilise the newsletter produced by the LGA's Communications Working Group to fulfil this requirement (which will be provided via the member newsletter, via the member's news section of the website and via post to those who have opted out of electronic communication).

Amendment	Action Required
An Administering Authority is no longer required to notify MHCLG of an admission and provide them with a copy of the admission agreement. However the Administering Authority must publish a list of the admission agreements it has entered into and keep this up to date.	The list of admission agreements will form part of the Fund's annual report's listing of active employers at 31 March each year. This is in compliance with advice from the Local Government Association.
Requirement to pay an exit credit to exiting employers	The Funding Strategy Statement is being reviewed to reflect the ability for employers to be entitled to an exit credit (previous wording related to cessation debt only). The Fund will consider cash flow implications.
Payment of deferred benefits at age 55 for leavers dependent on when they left the Scheme. This is to align the entitlement to early payment of benefits to that of members in the 2014 section of the scheme.	The Pensions Team will need to amend their processes and the administration system will require updating to allow for members to access their benefits early.
Expansion of the statutory unpin for members who were an active member of another public service pension scheme on 31 March 2012, were within 10 years of age 65 at 1 April 2012 and then joined the LGPS and transferred their benefits.	The Pensions Team will need to change their communications, processes and pensions systems to account for these changes. In addition, they will also need to review past cases to determine if the underpin should have applied to benefits that are already in payment.
Alignment of AVC payment options whether taken out pre and post 2014.	The Pensions Team will need to change their communications, processes and pensions systems to account for these changes.

- 2.6. Further amendments have been made to the Local Government Pension Scheme Regulations to allow the Regulations to deliver the original policy intention. These are summarised in Appendix 1. No action is required with these, and should just be noted by the Board, as the Pensions Team and/or Pension Fund have already been following guidance that delivered the original policy intention.

Governance and Administration survey

- 2.7. The Pension Regulator (TPR) have published their 2018 report on the findings of the governance and administration survey (undertaken in November and December 2017) of public sector pension schemes.
- 2.8. In total 191 of the 207 public sector pension schemes completed the survey.
- 2.9. The reports covers Scheme governance, record-keeping, internal controls and member communications and is a key indicator about what the Pensions Regulator will be focused on over the next year. The West Sussex Fund is considering the report and its response to the findings included.

3. Performance

- 3.1. The principal functions of the Board's include "seeking assurance that administration performance is in compliance with the Administration Strategy". The following items are considered relevant in respect of compliance of the Fund and its employers in line with the Strategy and Regulations.
- 3.2. Details of the caseload performance reported against target are shown in Appendix 2.
- 3.3. In relation to contribution payments specifically detailed analysis of the date contributions were paid to the Fund is set out in Appendix 3.
- 3.4. As reported previously the Fund had not received any payments from one employer (covering two Admission Agreements) in the last financial year and this was included in the Breach report. The Pension Fund liaised with legal services to resolve the outstanding payments and ultimately has a guarantee from the local authority concerned with this service. The local authority has now made payment of the outstanding contributions to the Fund.
- 3.5. Details of the Membership Movements are shown in Appendix 4.

Compliments and Complaints

- 3.6. At the last meeting the Board asked to see details of the compliments and complaints received through the Pensions Team.
- 3.7. This information is provided to Officers on a monthly basis, which allows for them to identify any trends and service improvements that may be required.
- 3.8. A copy of the summarised report is attached at Appendix 5

4. Communications

- 4.1. The principal functions of the Board's includes "Considering the effectiveness of communication with employers and members including the Communication

Strategy". The following items are considered relevant in respect of the Board supporting effective communication.

Employer Communication

Survey

- 4.2. In the Communication Policy Statement, the Fund undertakes to request feedback from members and employers via a Customer Satisfaction survey. An online employer survey was conducted in November 2017. This offered the chance for employers to submit valuable feedback to the Pension Fund in relation to Pension Fund and administration performance. A summary of the responses is available at Appendix 6.

Member Communication

Newsletter

- 4.3. The Communication Policy Statement undertakes to provide an annual newsletter (for current members and pensioners) which provides updates in relation to changes to the Schemes as well as other related news. The Active member newsletter for 2018/19 has been drafted and is in the process of being signed off. This will be published in line with the Annual Benefit Statements.

Annual Benefit Statements

- 4.4. The statutory deadline for production of Annual Benefit Statements is 31st August each year. Capita produce these on the Funds behalf.
- 4.5. Due to resource the Pensions Team are currently running two weeks behind their schedule. However it is envisaged that this will be caught up and the statutory deadline met.
- 4.6. This is being monitored and any risks assessed weekly by Officers in a regular catch up meeting.

5. Change to Pension Admin Provider

- 5.1 As a part of the overall review of the contract the County Council has with Capita for back office functions, the element relating to pension administration has been reviewed. Since the Contract was awarded there have been additional complexities added to the Local Government Pension Scheme. These include, for example, the move to members benefits being based on Career Average Revalued Earnings (or CARE) rather than a members final salary scheme and a significant increase in size – for example an increase in employer numbers.
- 5.2 The Capita Pensions Administration Service has had difficulties in meeting their Key Performance Indicators in recent years and a survey last year indicated 63% of Scheme members were less than satisfied with the time taken to answer queries.

- 5.3 Based on advice from independent consultants, alternative service providers were considered, applying the following criteria:
- Costs of service delivery, including any transition costs.
 - Performance on key tasks/transactions, quality of data and track record on delivery.
 - Timeframe and plans for a successful transfer.
 - Use of IT processing technology, on line accessibility, automation levels for transactions and system controls.
 - Governance framework for collaboration with West Sussex.
- 5.4 Subsequently, the Cabinet Member for Finance and Resources has agreed the variation to the Capita contract and that Hampshire CC has been appointed as new providers (which will be through a Delegation Agreement), which is anticipated to occur by March 2019. The decision was previewed at the Performance and Finance Select Committee first. A verbal update will be given at the meeting

Amendment Regulations

It was identified that the way the original set of Regulations were written, for some areas could have been interpreted incorrectly and therefore providing the wrong outcome.

Amendment	Requirement
Change of definition of local government service	To align admission body provisions with the LGPS more closely with the Public Service Pensions Act 2013
Cancellation of membership of the 50/50 section	<p>To make clear that where a member is contributing to the 50/50 section of the scheme, membership of that section is cancelled from the beginning of the first pay period after:</p> <ul style="list-style-type: none"> • The member's automatic re-enrolment date, or • The member goes onto nil pay as a result of sickness, injury, or child-related leave provided that the member is still on no pay at the beginning of that pay period
Contributions during absence from work	Before the change, the regulation could be interpreted incorrectly to mean that where a member is on either child related leave, reserve forces leave or on leave due to sickness, they would only be credited with earned pension if they were in receipt of pensionable pay. Members deemed to be in receipt of assumed pensionable pay (sickness, injury, child-related leave or reserved forces duties) would have been excluded.
Calculation of assumed pensionable pay	<p>There may be occasions where the outcome of the prescribed calculation is, in the employer's opinion, materially lower than the actual level of pensionable pay the member would normally receive had they been at work.</p> <p>In these circumstances, the employer may substitute a higher level of pensionable pay than the APP value to reflect the level of pay the member would normally have received.</p>

	<p>In making such a determination, the scheme employer must have regard to the pensionable pay received by the member in the previous 12 months. If the member has not received any pensionable pay in the previous 12 months, this does not prevent an employer from making a determination to substitute a higher level of pensionable pay.</p> <p>The changes are introduced to align the regulations with what is likely to be happening in practice</p>
Benefits payable where a member is dismissed on the grounds of redundancy or business efficiency	To make clear that where an active member, aged 55 or over, is dismissed from an employment on the grounds of redundancy or business efficiency, or whose employment is terminated by mutual consent on business efficiency, only the benefits derived from the member's active pension account are payable without reduction under this regulation.
Maximum tax-free lump sum payable from an AVC plan started on or after 1 April 2014	To make clear that the maximum tax-free lump sum payable from an AVC plan (established on or after 1 April 2014) is limited to 100% of the value of the AVC plan.
Inclusion of ill health enhancement when calculating survivor benefits	To make clear that where survivor benefits are payable upon the death of a member who was in receipt of a Tier 1 or Tier 2 ill health pension under the 2014 Scheme, a proportion of the ill health enhancement is fed into the calculation of any survivor benefits
Lifetime Allowance protections	To make clear that in determining a member's lifetime allowance, primary, enhanced, fixed and individual protection may be taken into account, as appropriate.
Scheme employer additional payments in respect of early retirement where a member has reached the age of 55 or over and the employer chooses to waive the	Prior to this amendment, the regulations had inadvertently missed this cost from the list of additional payments that a scheme employer may be required to make to a fund.

reduction to their benefits.	
Transfers (under which legislation a member is allowed the right to transfer out of the scheme)	Prior to this amendment, the regulations incorrectly referenced revoked legislation.
Clarification of the definitions: partner, statutory pay and revelation adjustment	To make clear that a partner can be the partner of an active, deferred, deferred pensioner and pensioner member. Prior to the amendment the definition of partner was specific to an active member only.
Connected scheme employers reference corrected	Prior to the amendment the regulations incorrectly referenced a local authority as being a connected employer, this wouldn't always be the case.
Aggregation – clarification of Normal Pension Age (NPA)	Prior to the amendments, the regulations inadvertently protected the NPA of the aggregated benefits to that of the 1995 regulations.
Aggregation – introduction of time limit	This amendment removes an unintended provision for certain members who have an open ended right to elect for the aggregation of a deferred benefit.
Correction to additional contributions paid before 1 April 2014 in a refund paid under the 2013 Regulations	Prior to this amendment, the regulations could have been interpreted to mean that the additional contributions (including AVCs) were not refunded at the same time as the main scheme contributions. This could have resulted in orphan AVCs.

ACCESS Work Update

Report by Director of Finance, Performance and Procurement

Summary

This report provides a summary of the on-going work on the asset pooling work, via the ACCESS group of authorities of which West Sussex is a member.

Recommendation

That the Pension Advisory Board notes the progress

Background and Context

1. The summer 2015 budget included the Government's intention to invite Administering Authorities to make proposals for pooling Local Government Pension Scheme (LGPS) investment assets. This was followed in the autumn by criteria from the Ministering of Housing and Local Government for pooling investments. The criteria focused on four elements:
 - Scale – it is the Government's desire that pools of assets are created with at least £25bn of assets per pool.
 - Strong Governance – authorities are charged with defining the mechanisms by which they can hold the pool to account.
 - Reduced costs – including estimated savings over the next 15 years.
 - Improved capacity to invest in infrastructure through pooling.
2. Subsequently the Government published revised LGPS Management and Investment of Funds Regulations that came into force on 1 November 2016. The Regulations include the power for the Secretary of State to direct a fund to change its investment strategy or direct that a fund's investment function is undertaken by another organisation if the Secretary of State determines that a fund is failing to act in accordance with guidance issued, including the guidance to pool investments according to the criteria above.
3. The Government's expectation was for the asset pools to be formed in order for liquid investment assets to begin being transferred from individual LGPS Funds from 1 April 2018.
4. In response, West Sussex joined with ten other Pension Fund Administering Authorities to form the ACCESS group. ACCESS Authorities collectively have

assets of £43.2b (£31.8b in March 2016) which exceeds the Government's criteria and makes it one of the largest LGPS asset pools (see Appendix 1).

Progress

5. Since the Panel agreed to join the ACCESS group in 2016:
 - A Joint Governance Committee comprising the Chairman from each of the 11 LGPS Pension Committees have met in a shadow form until the full Inter Authority Agreement between the ACCESS funds was approved by each of the County Council Committees in spring / summer 2017 (approval by West Sussex was 24 March 2017). The inaugural Joint Committee meeting of the ACCESS Pool was held on 31 July 2017 at which Cllr Reid (Suffolk) and Cllr Stogdon (East Sussex) were appointed Chairman and Vice-Chairman respectively. West Sussex County Council is represented by Cllr Hunt, as Chairman to the West Sussex Pensions Panel.
 - The ACCESS authorities completed a joint procurement exercise to appoint a single provider to manage £10.5bn passive investments for the ACCESS Funds. The contract was awarded to UBS Asset Management (UK) Limited in October 2017, resulting in savings of £5m, and all assets were transferred within the financial year. These will be held under pool governance, but not within the formal pool structure. West Sussex has no passive investments.
 - A full OJEU compliant procurement was undertaken for an Operator, whose responsibilities include selecting and contracting with managers on behalf of the authorities participating in the pool and who will be Authorised by the FCA to run the pool. Link Fund Solutions were appointed and their Agreement was effective from February 2018.
6. West Sussex County Council has actively participated in the establishment and onboarding arrangements (i.e. the transferring of assets into the pool) relating to the ACCESS group.
7. Work is focused currently on establishing *The ACCESS Pool Authorised Contractual Scheme* and the initial sub-funds (which requires an application to the Financial Conduct Authority accompanied by various Scheme documents) to allow initial investments to be made into the pool.
8. Work is ongoing in respect of agreeing the practical implications of the governance arrangements set out within the Inter Authority Agreement and elsewhere, and to ensure that the governance arrangements remain fit for purpose.

WSCC Arrangements

9. Governance Committee have recently approved a recommendation to Full Council that the Terms of Reference for the Pensions Panel are updated to reflect its role in considering recommendations from the ACCESS Joint Committee.

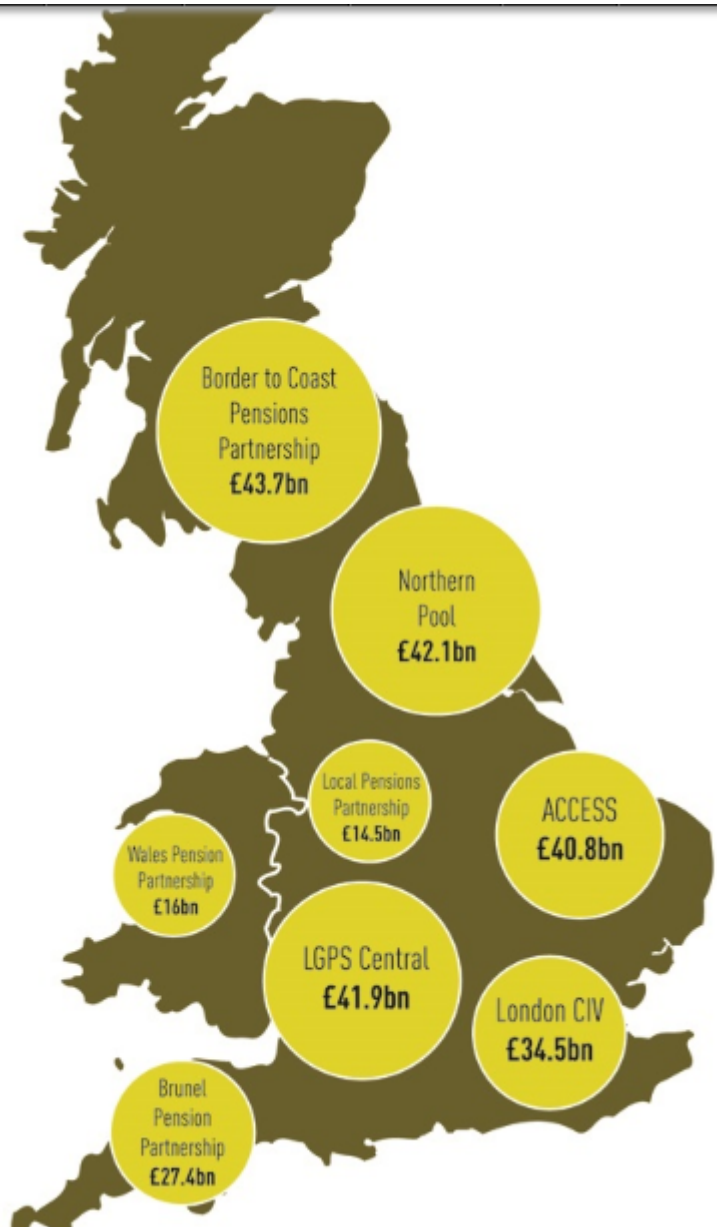

10. The Pensions Panel are also mindful of the changes to the investment arrangements in consideration of the Pension Fund's investment strategy. The ACCESS's pool's stated objectives to "Enable participating authorities to execute their fiduciary responsibilities... as economically as possible" and "Provide a range of asset types necessary to enable those participating authorities to execute their locally decided investment strategies as far as possible" is important here.
