Fire Improvement Plan: September 2020 Update

Introduction

- 1. The 2020/21 budget provided £1.7m of funding, to continue to deliver on the Improvement Plan approved by Members in July 2019 and to specifically address the areas of concern raised by HM Inspectorate of Constabulary and Fire and Rescue Services (HMICFRS) when they re-visited West Sussex Fire and Rescue Service (WSFRS) on 19th February 2020.
- 2. The Improvement Plan at this early stage of the financial year suggests further funding of £0.371m, to meet reprofiled expenditure will be required in year; although it is acknowledged that this value is likely to change as plans are implemented throughout the year. Options are being considered for how this potential funding requirement will be met.
- 3. Financial investment into the service has improved our overall resilience, enabling us to play a crucial role in the response to Covid-19 both locally and regionally through the Sussex Resilience Forum (SRF).
- 4. We saw an increase in the number of Retained Duty System firefighters being available, and as such, have had more fire engines available and ready to respond when needed than pre-crisis.
- 5. The Fire and Rescue Service (FRS) supported South East Coast Ambulance Service with logistical support, mechanical support and trained a number of firefighters to crew ambulances with paramedics for when and if required.
- 6. The service implemented strict infection control measures at the start of the Covid-19 crisis and staff levels were not detrimentally affected throughout.
- 7. Some areas affected by Covid-19 as a result of lockdown and social distancing measures was our ability to deliver some elements of practical training. Training in risk-critical firefighting skills was provided by additional training online through webinars and virtual input by trainers.

Prevention and Protection

- 8. Statutory activities such as building regulations consultations were able to continue unaffected. The FRS also maintained the ability to respond to fire safety concerns in businesses throughout that required enforcement action.
- 9. Our standard risk-based inspection programme of fire safety audits required reprofiling as many of the premises due to be audited were closed during lockdown and restrictions meant it was unfeasible to visit in person.

Wherever possible, telephone and desk-top audits were carried out, and as restrictions eased, protection have succeeded in clearing the pent-up demand from the lockdown period by temporarily redirecting resources and with increased specialist resources introduced through improvement funding.

- 10. The Fire Safety legislation, which the Fire Authority is required to enforce is the Regulatory Reform (Fire Safety) Order 2005. Following the Grenfell Tower tragedy, weaknesses in this legislation were identified and to address these, a new Fire Safety Bill is going through Parliament and is currently at the Public Consultation Stage.
- 11. Staff from the WSFRS Protection Team, who are delegated to enforce Fire Safety on behalf of the Fire Authority, have been engaged in workshops and surveys throughout the review of the legislation. This includes providing information during the 'call for evidence' stage and more recently in helping to develop the National Fire Chiefs Council (NFCC) reply to the public consultation which closes on 12th October 2020.
- 12. The recent investments by the Authority through the improvement work has helped the service to deal with the impacts of this legislation. This has included more staff; who are being trained to a higher level to meet the expectations in the NFCC Competency Framework for Fire Safety; and, a new fire safety data base called Farynor.
- 13. The Building Safety Bill is currently as the 'call for evidence' stage and this second piece of legislation aimed High Rise Residential Blocks may also have a significant impact on the service's work demands. The service is fully engaged with the consultation of this legislation.
- 14. Prevention activity was also affected as most of the residents that we normally visit are either self-isolating or shielding. To ensure the FRS could still help those at risk of fire, they offered safe and well visits in three ways; in person with staff social distancing and wearing personal protective equipment (PPE) (for those at highest risk), by phone and by skype. The FRS have succeeded in clearing the pent-up demand from the lockdown period by temporarily redirecting resources and with increased specialist resources introduced through improvement funding.

Looking after our People and Future Learnings

15. WSCC Human Resources (HR) team, in partnership with the FRS People and Organisational Development team, produced guidance for staff including Staff Special Circumstances Policy. This meant staff felt supported by the service if having to self-isolate.

- 16. HR also provided much support to FRS managers around staff self-isolating and there were weekly messages, through Business Continuity Action Team (BCAT) meetings around regular contact with staff, and a high level of information around wellbeing and mental health. Senior managers conducted virtual coffee catch ups and weekly surgeries.
- 17. WSFRS commissioned a 10kv debrief to evaluate cross sector professionals managing the Covid-19 crisis across West Sussex County Council. This required the modification of 10kv technologies and methodologies to enable participants to engage using their smartphones, with live streaming video facilitation. We are reviewing the report which will help us with our further learning from the response to Covid-19.
- 18. The service surveyed all staff at the beginning of the pandemic to ascertain their needs, particularly around home working, flexible requirements and shielding. This enabled managers to have one to one discussion with team members to ensure that everyone's needs were accounted for. This included flexibility to allow staff to shield with loved ones where requested to reduce anxiety in uncertain times, which shows how the service went over and above 'minimum requirements' and tried really hard to focus on people. It also allowed the service to forecast predicted staffing and resourcing, which helped to ensure that priorities were focused on with an eye over the horizon.

Fire and Rescue Improvement Plan - September 2020
