Internal Audit Plan 2022-23 (Quarter 4)

Report by Head of Southern Internal Audit Partnership

Summary

The purpose

of this paper is to provide the Regulation Audit & Accounts Committee with an overview of the Internal Audit Plan 2022 – 2023 (Quarter 4) (Appendix A).

Recommendations

- (1) That the Committee approve the Internal Audit Plan 2022-23 (Quarter 4) as attached.

Proposal

1 Background and context

- 1.1 The aim of internal audit's work programme is to provide independent and objective assurance to management, in relation to the business activities; systems or processes under review that:
 - The framework of internal control, risk management and governance is appropriate and operating effectively; and
 - Risks to the achievement of the County Council's objectives are identified, assessed and managed to a defined acceptable level.
- 1.2 The Internal Audit Plan provides the mechanism through which the Chief Internal Auditor can ensure most appropriate use of internal audit resources to provide a clear statement of assurance on risk management, internal control and governance arrangements. Internal audit focus should remain proportionate and appropriately aligned to key areas of organisational risk.
- 1.3 As previously reported, the Southern Internal Audit Partnership has adapted its processes to approach planning on a quarterly basis to ensure internal audit focus remains aligned to the rapidly changing risks and priorities of the organisation.
- 1.4 All auditable areas of review remain within the audit universe and are subject to ongoing assessment. The audit plan will remain fluid to ensure internal audits ability to react to the changing needs of the County Council.
- 1.5 Other reviews, based on criteria other than risk, may also be built into the work plan. These may include 'mandatory' audits or reviews requested or commissioned by management. Any commissioned review must be able to clearly demonstrate a contribution to the audit opinion on risk management, control and governance.

2 Risk implications and mitigations
