Treasury Management Compliance Report – First Quarter 2023/24

Report by Director of Finance and Support Services

Summary

In accordance with treasury management governance arrangements, this report details compliance against planned parameters as approved within the annual Treasury Management Strategy Statement (TMSS).

During the first quarter of 2023/24 the County Council complied with all of the relevant statutory and regulatory requirements related to its treasury management activities. The Director of Finance and Support Services confirms that there were no breaches of the approved TMSS (including the Annual Investment Strategy) during the period.

Recommendation

The Committee is asked to review and comment on the Treasury Management Compliance Report.

Proposal

1. Introduction

1.1 The County Council has substantial amounts of investments and borrowings and is therefore exposed to financial risks including the loss of invested funds and the revenue effect of changing interest rates. The Chartered Institute of Public Finance and Accountancy's (CIPFA) Code of Practice for Treasury Management recommends that members are regularly updated on treasury management activity. This report therefore ensures the County Council is implementing best practice in accordance with the Code.

2. Compliance Report

2.1 Throughout the first quarter of 2023/24 the County Council complied with the relevant statutory and regulatory requirements which require officers to identify and where possible quantify the levels of risk associated with its treasury management activities. No counterparty that the County Council held investments with during the quarter was negatively impacted by credit rating updates as published by Fitch, Moody's and Standard & Poor's, credit default swap/equity price trends and general media alerts (*Note: National Westminster Bank Plc upgraded from A to A+ by Standard & Poor's during the quarter*).

- 2.2 **Borrowing:** On 30 June 2023 the County Council's Public Works Loan Board (PWLB) long-term borrowing for capital purposes totalled £461.3m (unchanged from 31 March 2023). During the first quarter of 2023/24:
- (a) No new external borrowing (including forward borrowing) for capital purposes was undertaken during the period.
 - (b) No external debt rescheduling was undertaken during the period.
 - (c) Excluding money held on behalf of the Chichester Harbour Conservancy (and its associated charities) and overdraft facilities with the County Council's main provider of banking services (Lloyds), no short-term borrowing was undertaken for cash flow purposes. The County Council's policy of funding daily cash flow shortages from balances held in short-term Money Market Funds was maintained throughout the period.
- 2.3 In accordance with the approved 2023/24 Treasury Management Strategy, the County Council's Liability Benchmark model will be updated during the year thereby keeping the Council's borrowing position under regular review. The Liability Benchmark (including future iterations of the model) is used to forecast the timing of when new external borrowing will be required to finance the County Council's capital expenditure plans (*currently forecast to be 2025/26 as set-out in paragraph 6.17 of the 2023/24 Treasury Management Strategy*).
- 2.4 **Investment:** The average level of County Council funds available for treasury investment during 2023/24 (to 30 June) was £457.5m (£450.9m average throughout 2022/23). Total levels of investments, including cash balances held in the County Council's main Lloyds business bank accounts, amounted to £409.7m on 30 June 2023 (£394.9m as of 31 March 2023) as shown in Table 1 (paragraph 2.7). In line with usual cash-flow movements observed during the first quarter of a financial year, cash balances available for investment remain at elevated levels, a consequence of Capital and Revenue funding received ahead of planned spend and levels of usable reserves that the County Council continues to hold.
- 2.5 During the first quarter of 2023/24, the County Council complied with the approved Treasury Management Strategy through the arrangement of short term investments (up to one year) in UK Government deposits (via the Debt Management Office), financial institution deposits and local authority loans; with liquidity to meet all financial obligations as they arose being maintained in Money Market Funds.
- 2.6 UK banking legislation continues to place the burden of rescuing failing banks disproportionately onto unsecured creditors (including local authority investors) through the potential bail-in of unsecured bank deposits. The use of short-term investments (including unsecured bank deposits and Money Market Funds) however remains an integral part of the County Council's treasury management strategy in maintaining both adequate cash-flow liquidity and supporting investment returns.
- 2.7 As a consequence, the disposition of bank unsecured and other investments on 30 June 2023 as compared with 31 March 2023, is detailed below:
