6.2 Deborah Myers highlighted that the responses to the previously asked questions by the campaign group had been circulated and that paper copies were available for members of the public (copy appended to the signed minutes). The feasibility study had been completed and the next stage would be to discuss options with the Governors. The original meeting with Governors had been postponed to 4 July due to Ofsted visiting the school.

6.3 The lead campaigner spoke and thanked officers and members for being present at the meeting to discuss the school; and also thanked Nicholas Soames for his support. Concerns were raised on the lack of progress and the impact this had had on resources. A request was made for more clarity on timescales. – *Deborah Myers explained that it was not possible to discuss timescales until after the meeting with the Governors. Following the meeting with Governors, a discussion would be required with the Cabinet in order to understand the extensiveness of the proposed works and the timeframe for delivery. The Chairman confirmed that the statutory duty of the local authority was to engage with Governors.*

6.4 A pupil spoke to the Committee and explained some of the difficulties pupils faced with the current facilities and emphasized that the

pupils deserved an appropriate school. – *The Committee thanked the pupil for raising concerns on behalf of all pupils.*

6.5 Richard Burrett explained the process that would follow the meeting with the Governors and how the proposals would need to be discussed with the Cabinet with regard to inclusion within the Capital Programme. It was important to find the correct, long term solution for the school, even if this resulted in a longer process.

6.6 Richard Burrett informed the public that Deborah Myers was leaving the authority but gave reassurance that the progress and traction would not be lost as a result. Deborah Myers explained that before she left the authority in August she wanted to ensure that an agreement was secured with the Governors on an option, and that this proposal had gone to Cabinet.

6.7 Members from the campaign group expressed importance on the correct solution being found with regards to space and special educational needs. A request was made for improved communications to avoid waiting for each Committee for an update, which would assist with anxiety and transparency concerns. – *Richard Burrett resolved to improve communications, but could not confirm a frequency for updates. The Woodlands Mead Communication page would be utilised for updates.*

6.8 Committee members expressed sympathy and concern for the school and resolved to keep Woodlands Mead on the Progress Statement and on the Committee's radar until the matter was concluded.

7. Progress Statement

7.1 The Committee considered the progress report on matters arising from previous meetings (copy appended to the signed minutes).

7.4 Richard Speller informed the Committee of an issue with McDonalds in Burgess Hill and how the changes to the drive through were impacting the roundabout. The issue had been discussed with Mid Sussex District Council and the Police and it had been proposed to loop the queueing cars back into the car park to resolve the matter. Yellow lining on the roundabout had been considered, but this would require use of the revenue budget. The situation would continue to be monitored. The Chairman requested that this issue, and a road space audit update were placed on the next Progress Statement.

7.8 Richard Speller updated the Committee on the Integrated Works Programme and reported that Oathall Road was complete; the Torch 4 Access Path (incorrectly titled 'Touch' in the papers) was open. The Speed Indicator Device (SID) for Burgess Hill had been serviced and returned. An update on SID devices would come to the next Committee meeting.

7.9 The Chairman asked the public if they had any questions.

- Queried the speed limit on Vale Bridge Road. – *Richard Speller explained that to convert the speed limit to 30 mph would require the demonstration of compliance engineering to ensure adherence with the speed limit. A model would be required to build this information. The proposal was not recommended as it did not meet policy.*

8. Talk With Us Open Forum

8.1 The Chairman reported that he had raised concerns with the Cabinet Member for Safer Stronger Communities and the County Council Chairman over the merging of the Central and South Mid Sussex County Local Committees. It was reported that the Governance Committee would be conducting a review to look into the concerns.

- Concerns raised on crossing on Keymer Road and that it required a pedestrian crossing to improve safety, particularly for school children arriving from the train station. Keymer Road Girls School, Burgess Hill, were happy to assist with costs. – *Richard Speller explained that there was no accident data for the area and that footfall data would be required to consider this location. The*

Chairman proposed that Mrs Jones and Richard Speller met with the resident to discuss this.

- Queried raised from a matter discussed during the Progress Statement on the McDonald's Drive Through impact on the roundabout. A Community Highway Scheme could be utilised to fund something from the developer if the scheme was selected. Lindfield Parish Council are looking into this.*

The resident was encouraged to attend Nicholas Soames' surgery to discuss with him. The resident resolved to send his proposal to the Committee members to gain their support.*
- Comment on A frames being a danger on pavements. – *Mr Wickremaratchi resolved to discuss this with the Cabinet Member for Highways and Infrastructure.*

Other issues could be addressed via a community application. Richard Speller explained that if a request came in from the community, officers would utilise design consultees to understand the proposals.

12.5 Richard Speller confirmed that the timing of the restriction was consistent with other restrictions as a standard time frame.

12.6 Operation Crackdown was proposed as a good process for reporting illegal parking.
