Harrie's Coffee

Diana Morgan

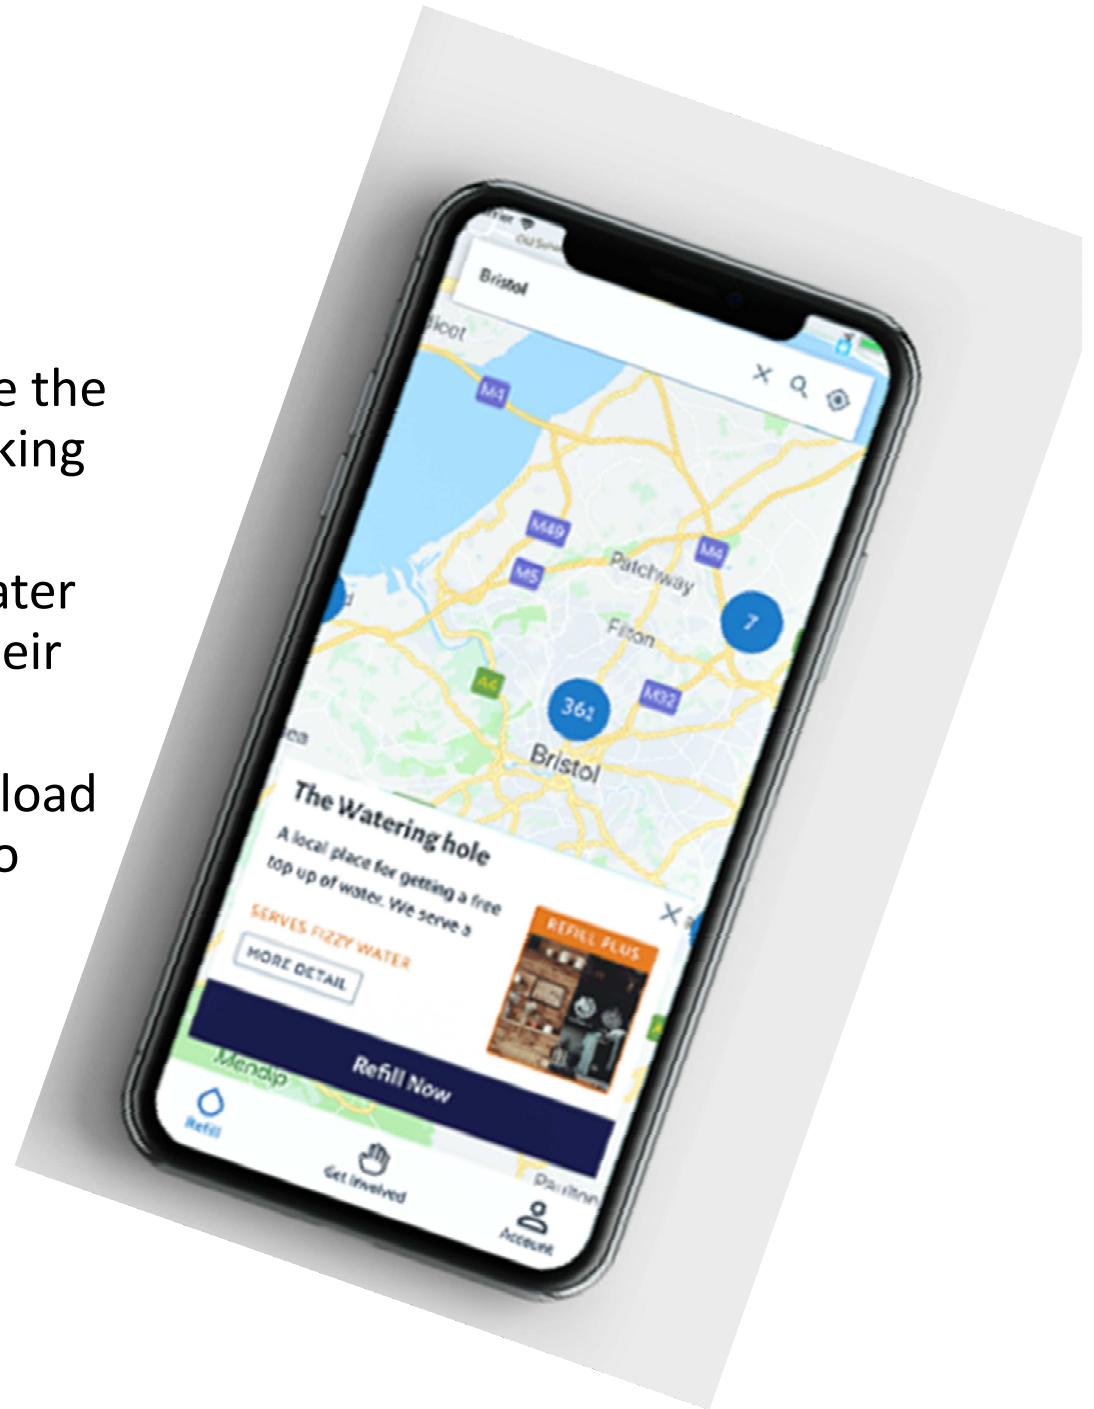

Transition Chichester

What is Refill?

- A national initiative to enable the public to have to access drinking water when they are out
- Local businesses offer tap water refills for free and register their business on an app
- The general public can download the app to find local places to refill.

www.refill.org.uk

Why?

- Average person in the UK buys 150 plastic water bottles every year.
- Even recycling them is a drain on resources
- But many end up in our rivers and oceans
- If just one in ten Brits refilled once a week, we'd have 340 million less in circulation
- Refill is on a mission to inspire social change back to tap water

What's happening locally?

- Organisations are coming together to make Refill happen in West Sussex:
 - Community organisations
 - District and Borough Councils
 - West Sussex County Council
 - Water companies
- Towns and cities are signing up their own Refill schemes to encourage businesses to take part:
 - Horsham, Worthing and towns in Mid Sussex are already running
 - Arundel, Crawley, Bognor Regis are on their way

What's next?

Refill Chichester

by Transition Chichester
Launching January 2019

Supported by:

- West Sussex County Council
- Chichester District Council
- Chichester City Council

What can you do to help?

- Tell everyone about Refill
- Buy a reuseable bottle and use the app yourself
- Encourage local businesses to take part
- Volunteer to help us at our launch events
