# An energy supplier for Sussex

We launched Your Energy Sussex to:

- Give people a **competitive, reputable, local alternative** to the 'Big 6' energy companies;
- Increase the number of Sussex households that **switch and save money** on their bills;
- **Help residents** that are struggling to pay their bills.

THE WEST SUSSEX WAY

# Energy prices – why switch?

Energy prices are predicted to rise in the medium term.

- Know how much energy you use and the cost;
- Compare their current energy tariff with others on the market;
- Choose a value-for-money 12-18 month fixed deal.

# Why choose Your Energy Sussex?

- A local energy supplier supported by councils;
- Competitive prices today and in the future;
- Excellent customer service;
- Not-for-profit;
- 100% renewable electricity;
- Local generation.
