

West Sussex Pension Fund

NOTE 3: Summary of significant accounting policies

Fund Account – revenue recognition

- a. Contribution income
Normal contributions, both from members and employers, are accounted for on an accruals basis. Member contributions are accrued at the percentage rate in accordance with the LGPS Regulations 2013. Employer contributions are accrued at the percentage rate recommended by the Fund actuary in the payroll period to which they relate.

Employer secondary contributions are accounted for on an accruals basis.

Employers' augmentation contributions and pensions strain contributions are accounted for in line with the payment schedule. Any amount due in year but unpaid will be classed as a current financial asset.

- b. Transfers to and from other Schemes
Transfer values represent the amounts received and paid during the year for members who have either joined or left the Fund during the reporting period and are calculated in accordance with the Local Government Pension Scheme regulations.

Individual transfers in/out are accounted for when received/paid which is normally when the member liability is accepted or discharged.

Transfers in from members wishing to use the proceeds of their additional voluntary contributions to purchase Scheme benefits are accounted for on a receipts basis and are included in transfers in.

Bulk (group) transfers, where relevant are accounted for on an accruals basis in accordance with the terms of the transfer agreement.

- c. Investment income
- i. Interest income
Interest income is recognised by the Fund as it accrues, using the effective interest rate of the financial instrument as at the date of acquisition or origination. Income includes the amortisation of any discount or premium, transaction costs or other differences between the initial carrying amount of the instrument and its amount at maturity calculated on an effective interest rate basis.
- ii. Dividend income
Dividend income is recorded on the date that the shares are quoted as ex-dividend. Any amount not received at the end of the reporting period is disclosed in the Net Asset Statement as an investment asset.
- iii. Distributions from pooled funds
Distributions from pooled funds are recognised at the date of issue. Any amount not received at the end of the reporting period is disclosed in the Net Asset Statement as an investment asset.
- iv. Property-related income
Property income consists primarily of rental income and is accounted for on an accruals basis.

- v. Movement in the net market value of investments
Changes to the net market value of investments (including investment properties) are recognised as income or expense and comprise all realised and unrealised profit/loss during the year.

Fund Account - Expense items

- d. Benefits payable
Pensions and lump sum benefits payable include all amounts known to be due at the end of the reporting period. Any amounts due but unpaid are disclosed in the Net Asset Statement as current liabilities.
- e. Taxation
The Fund is a registered public service scheme under section 1(1) of Schedule 36 of the Finance Act 2004 and as such is exempt from UK income tax on interest received and from capital gains tax on the proceeds of investments sold. Income from overseas investments suffers withholding tax in the country of origin, unless exemption is permitted. Irrecoverable tax is accounted for as an expense as it arises.
- f. Management expenses
The Code does not require any breakdown of Pension Fund administration expenses. However in the interests of greater transparency, the Fund discloses its Pension Fund management expenses in accordance with CIPFA's *Accounting for Local Government Pension Scheme Management Expenses (2016)*

Administrative expenses

All administrative expenses are accounted for on an accruals basis representing the annual charge relating to the Capita Pensions Administration, staff costs for officers related to interaction with employers and associated management, accommodation and other overheads relating to those officers.

Oversight and governance costs

All oversight and governance expenses are accounted for on an accruals basis. All staff costs associated with governance and oversight are recharged. Associated management, accommodation and other overheads are apportioned to this activity. The Fund's external advisor fees are also included in oversight and governance costs.

Investment management expenses

All management expenses are accounted for on an accruals basis. Fees of the external managers and custodian are agreed in the respective mandates governing their appointment and are mainly based on the market value of the investments under management and therefore increase or reduce as the value of these investments change.

In addition the Fund has negotiated that an element of Baillie Gifford's fee is performance related. Baillie Gifford's performance related fees were £5.4m in 2017/18 (2016/17 - £2.9m).

The cost of the County Council's in-house treasury management team is charged to the Fund based on a proportion of time spent by officers on treasury management. This is included in investment management costs.

Net Asset Statement

g. Financial assets

Investments are shown on a fair value basis as at the reporting date. A financial asset is recognised in the Net Asset Statement on the date the Fund becomes party to the contractual acquisition of the asset. From this date any gains or losses arising from changes in the fair value of assets are recognised. The values of investments have been determined at fair value in accordance with the requirements of the Code and IFRS13 (see Note 16). For the purposes of disclosing levels of fair value hierarchy, the Fund has adopted the classification guidelines recommended in *Practical Guidance on Investment Disclosures* (PRAG/Investment Association, 2016).

h. Freehold and leasehold properties

Properties have been valued at the reporting date by independent external valuers, on the basis of fair value as required by the International Financial Reporting Standards (IFRS). See Note 16 for more details.

i. Foreign currency transactions

Dividends, interest and purchases and sales of investments in foreign currency have been recorded at the spot exchange rate and translated into sterling at the rate ruling at the date of the transaction.

End of year spot market exchange rates are used to value cash balances in foreign currency, market values of overseas investments and purchases and sales outstanding at the end of the reporting period.

j. Derivatives

The Fund does not invest directly in derivatives. However, the Fund may use derivatives to assist with the efficient transition of portfolio assets during a portfolio restructure or fund manager change.

k. Cash and cash equivalents

Cash comprises cash in hand and demand deposits. Cash equivalents are short term highly liquid investments that are readily convertible to known amounts of cash and that are subject to minimal risk of change in value.

The day-to-day activity of the fund managers includes forward dated trades which means that assets and liabilities can be generated with a settlement date falling outside the accounting period. This is reflected in the accrued values for investments shown in the statements.

l. Financial liabilities

The Fund recognises financial liabilities at fair value as at the reporting date. A financial liability is recognised in the Net Asset Statement on the date the Fund becomes party to the liability. From this date any gains or losses arising from changes in fair value of the liabilities are recognised by the Fund.

m. Actuarial present value of promised retirement benefits

The actuarial present value of promised retirement benefits is assessed on a triennial basis by the Scheme actuary. As permitted under IAS26 the Fund has opted to disclose the actuarial present value of promised retirement benefits by way of a note to the Net Asset Statement (Note 20).

n. **Additional voluntary contributions**
Some members of the Scheme have made additional voluntary contributions (AVC) to boost the value of their pensions. These have been invested separately with Standard Life Assurance and Equitable Life Assurance Society and are not included in the Pension Fund accounts but are disclosed as a note (Note 23).

o. **Contingent assets and contingent liabilities**
A contingent liability arises where an event has taken place prior to the year-end giving rise to a possible financial obligation whose existence will only be confirmed or otherwise by the occurrence of future events. Contingent liabilities can also arise in circumstances where a provision would be made, except that it is not possible at the balance sheet date to measure the value of the financial obligation reliably.

A contingent asset arises where an event has taken place giving rise to a possible asset whose existence will only be confirmed or otherwise by the occurrence of future events.

Contingent assets and liabilities are not recognised in the Net Asset Statement but are disclosed by way of narrative in the notes (Note 25 & 26).
