CR39a	Cyber-security	25	25
CR58	Failure of social care provisions	25	25

2.4 Operational Covid-19 risks are considered and managed within the services, either through the production of new risks or applying the ramifications to an existing risk and its assessment. In addition, corporate Covid-19 risks are captured and controlled by the councils Covid-19 response team. The Corporate Risk Manager presents a summary of risks by themes and workstreams to ELT monthly for consideration. The table below summarises the key corporate Covid-19 risks.

Key Corporate Covid-19 Risks
Staff Shortage in Adults Services for older people's visits.
Community Hubs may not have enough staff capacity to manage an increase in demand, resulting in a failure to deliver essential food and medicine to vulnerable people.
Providers are increasingly unwilling to accept new placements which may cause a reduction in external placements and in-house foster care arrangements. This will lead to children not being looked after, becoming more vulnerable and at risk of harm.
Care homes are struggling to maintain an economically sustainable number of residents when experiencing deaths due to Covid-19 (>50% occupancy required). This lack of revenue creates a risk of care home closures which would then require financial intervention by WSCC to prevent this from occurring.
