

Report to Cabinet

Date: 20 July 2022

West Sussex Fire & Rescue Service Annual Statement of Assurance

Report by Chief Fire Officer

Electoral division(s): All

Summary

Fire and rescue authorities must provide assurance on financial, governance and operational matters and show how they have had due regard to the expectations set out in their Integrated Risk Management Plan (IRMP), this will be known as a Community Risk Management Plan (CRMP) for 2022/2023. Statements of assurance should be open and transparent, demonstrating accountability to communities who expect to know how these services are being provided. This document outlines the way in which the West Sussex County Council and its fire and rescue service delivered the requirements contained in the National Fire and Rescue Framework and the authority's IRMP during 2021/2022.

Recommendations

Cabinet is requested to approve the West Sussex Fire and Rescue Service Annual Statement of Assurance 2021-22

Proposal

1 Background and context

- 1.1 The Fire and Rescue National Framework for England, published on 11 July 2012, sets out that: "Fire and rescue authorities must provide assurance on financial, governance and operational matters and show how they have had due regard to the expectations set out in their integrated risk management plan and the requirements included in this Framework. To provide assurance, fire and rescue authorities must publish an annual statement of assurance."
- 1.2 As reported in a high level overview the West Sussex County Council Annual Governance Statement 2020-21, references actions to reinforce service improvement in Fire and Rescue and Children's Services and contribution to the County Council's overall assurance of improved corporate capability and capacity.
- 1.3 This statement of assurance highlights the areas that have been delivered to address that as well as the original Integrated Risk Management Plan Objectives that feed into that assured position.

- 1.4 Fire and rescue authorities are accountable for their performance and should be open to evaluation by the communities they serve. Information on their performance should be accessible, robust, fit-for-purpose and accurately report on effectiveness and value for money and this report provides that to the Council and its Executive with supporting data reviewed at the Fire and Rescue Service Scrutiny Committee.
- 1.5 Fire and rescue authorities are responsible for ensuring that their business is conducted in accordance with the law and proper standards, and that public money is properly accounted for and used economically, efficiently and effectively.
- 1.6 As some information has been presented throughout the year this has been highlighted to ensure that it is clear, accessible, and user-friendly within existing documents. There have been extracts, or links to these documents embedded into the statement of assurance.
- 1.7 The statement of assurance will be used as a source of information on which to base the Secretary of State's biennial report under section 25 of the Fire and Rescue Act 2004.
- 1.8 Fire and rescue authorities may wish to include a section in their statements of assurance on any potential improvements they have identified across their accounting, governance or operational responsibilities to communities, particularly where plans are underway. This report includes the annual report and makes reference to the new Community Risk Management Plan (CRMP) that went to public consultation in Q3 of 2021 and saw all proposals being supported by the community meaning the CRMP proposal document was developed and approved by Cabinet on 15th March 2022.
- 1.9 The statement of assurance should be signed off by the elected member of the authority who is able to take responsibility for its contents. For the County Council the Cabinet Member for Community Support Fire and Rescue proposes the report for collective endorsement by the Cabinet and so it has been entered into the forward plan for a decision on 20th July 2022 by Cabinet.

2 Proposal details

- 2.1 West Sussex County Council is the Fire Authority for West Sussex Fire and Rescue Service (WSFRS) and is responsible for:
 - Firefighting and rescue
 - Protecting people and property from fire
 - Promoting fire safety in the home
 - Providing special services for emergencies
- 2.2 Under the direction of the Cabinet Member for Fire and Rescue and Communities, West Sussex Fire and Rescue Service, within West Sussex County Council, has prepared an Annual Statement of Assurance for 2021-22.
- 2.3 Decisions relating to the fire and rescue service taken by those with executive authority will be scrutinised by the Fire & Rescue Service Scrutiny Committee which was established at the full county council meeting on 17 December 2019.

- 2.4 In the case of county council fire and rescue services the close working relationships that exist with other county council areas of responsibility such as adult care, children's services and public health are significant. This enables a holistic approach to keeping residents safe.

3 Other options considered (and reasons for not proposing)

- 3.1 The Fire Authority is statutorily required under the Fire and Rescue National Framework for England to produce an annual statement of assurance and the content of and approach to the preparation of the report are in line with national guidance, therefore no other options have been considered.

4 Consultation, engagement and advice

- 4.1 The document has been considered by the Cabinet Member for Community Support and Fire and Rescue and was presented to the Fire and Rescue Scrutiny Committee and subsequently amended following its recommendations. These included minor grammatical changes and removal or adjustment to infographics detailing structure.

5 Finance

- 5.1 There are no financial implications to the Council.

6 Risk implications and mitigations

- 6.1 The Fire Authority, Cabinet Member and members of the Fire and Rescue Service Scrutiny Committee will continue to monitor the performance of the fire and rescue service to ensure that any risk is mitigated through effective planning through the subsequent years of the Integrated Risk Management Plan (IRMP). The IRMP ran until April 2022, at which point the new Community Risk Management Plan (CRMP) became a live document. This new CRMP has been through public consultation, and the proposals were agreed by Cabinet in March 2022.

Risk	Mitigating Action (in place or planned)
Not being able to adopt an Annual Statement of Assurance (SOA)	All information supporting this informs the Council's Integrated Risk Management Plan (IRMP) to ensure the SOA is accurate and timely to support the service.
Not recording information accurately	West Sussex Fire and Rescue Service record information about every emergency call received. We analyse where, why and how incidents have occurred to help us understand where incidents might happen in the future and how we are best placed to prevent them. We also use the latest modelling software, demographic profiling, census data and information from our partner agencies. This information informs a critical fire risk map, which is updated every year based on rolling data from the previous three years.

Risk	Mitigating Action (in place or planned)
Not mapping critical risk	The critical fire risk map is part of our local Risk Management Plans facilitates the targeting of prevention activity to prioritise resources to the most vulnerable residents and those communities at highest risk. This ensures resources are used efficiently to achieve the best possible outcomes for our communities. The critical fire risk map is part of our local Risk Management Plans and is used to assist in the targeting of prevention activity allowing WSFRS to focus on the most vulnerable residents and those communities at highest risk, thereby ensuring its resources are used efficiently to achieve the best possible outcomes for our local communities. They are also used as the basis for our Emergency Response Standards.

7 Policy alignment and compliance

- 7.1 This report has positive implications for the community as it supports the continued improvement journey of the Fire and Rescue Service to all residents in West Sussex.
- 7.2 In terms of environmental sustainability, the IRMP makes clear the Authority's commitment to reducing the environmental impact of its operations and provides an indication of work done to date.
- 7.3 There are no equality implications associated with the content of this report. One of the principal aims of the Statement of Assurance is to provide an accessible way in which communities, public sector authorities and partners may make a valid assessment of our performance. The information presented in the report will be reviewed continuously to ensure that it reflects and adheres to any changes or developments in equalities legislation.
