<p><b>Business Case for change</b>                      The current measure is just covering 19 to 21-year-olds, who are in employment, education, or training. However, the DfE statutory return (Children Looked After SDA903) also includes 17- and 18-year-olds. By including them within the measure, we will be able to provide a more accurate picture and a single, comparable view of our CYP who are in Employment, Education or Training (EET). This will allow us to focus on developing pathways for our CYP into EET in a more systematic and coordinated manner. We will also be able to demonstrate the impact of our interventions more readily. Whilst ONS figures cover 16–24 year-olds, this national data comes from the Labour Force Survey (LFS) focussing on those not in full time education, employment or training and is not directly comparable.</p>
