Ambulance Handover Performance – West Sussex, University Hospitals Trust West October 21 – October 22

Recorded Handover Delay

Hours Lost per Journey

Recorded Wrap Up Delay

Average No. of Transports per Day

Worthing – best performing handover performance in West Sussex. Urgent Treatment Centre 999 access is via a non-direct ED pathway, however this enables single queue visibility. Emergency Floor access review versus SDEC criteria required.

St. Richards – handover process good but discharge flow blocking exit. Escalation process includes boarding & peer review.
